Quality Inspection by Trained Professionals

We perform inspections in the following areas of a home. This will assist you in your purchase, sale and safety of the property.

- **Plumbing systems**
- **Electrical systems**
- **Insulation and Ventilation**
- **Bathrooms & Kitchens**
- **Heating & Air Conditioning**
- **Basement & Crawlspace**
- **Garage & Carport**
- **Attic**
- **Roof**
- **Windows**
- **Grounds**
- **Site**
- **Grading**
- **Exterior**
- **Interior**
- **Structure**
- **And more...**

We offer inspection of all types of homes, residential, seasonal, multi-family, rental and small commercial properties. We take the time to look over the property to show you any current problems or possible problems that may occur in the future.

We provide:

- An agreement before we start, outline what you can expect from our service.
- A full report upon completion. This report will provide details on 20 different areas of the property, and will provide details of each area. Each area has dozens of individually inspected items.

A careful inspection is very important! It could save you a great amount of money in the end.

We have been trained and certified through Professional Home Inspection Institute (PHII). PHII follows the training standards set forth in national standards. The 90 - 120 hour course meets all requirements for a Professional Home Inspection

Expect only the best from RPR
Professional Home Inspections Inc.
